Education

- | | |
|---|---------------------|
| PhD Johannes Kepler University Linz, Austria , Computer Science
<ul style="list-style-type: none"> Research on multimodal learning and recommender systems Supervising students Contributing to the scientific community as chair (publicity, proceedings), program committee, and reviewer | Oct 2021 – present |
| PhD Karlsruhe Institute of Technology (KIT), Germany , Theoretical Particle Physics
Thesis "Lepton Flavour Non-Universality - From Effective Field Theory to Extended Gauge Models"
<ul style="list-style-type: none"> Research on new physics models and lepton flavor universality violation | Jan 2016 – Jan 2019 |

Experience

- | | |
|---|---|
| Albatross AI , Applied Scientist (L5)
<ul style="list-style-type: none"> Developing effective recommender systems for Albatross AI's customers | Nov 2025 – present
10 months |
| Deezer Research Team, Paris, France , Research Intern
<ul style="list-style-type: none"> User modelling from large-scale music streaming data Analysis of user behavior patterns in music consumption | June 2024 – Dec 2024
7 months |
| Johannes Kepler University Linz, Austria , PhD Researcher
<ul style="list-style-type: none"> Multimodal representation learning for recommender systems Cold-start recommendation scenarios Music information retrieval and emotion-based music recommendation | Oct 2021 – present
4 years 11 months |
| ESK Karlsruhe, Germany , Maths and Physics High-School Teacher
<ul style="list-style-type: none"> Teaching mathematics and physics to high-school students | Sept 2020 – Oct 2021
1 year 2 months |
| Karlsruhe Institute of Technology (KIT), Germany , Postdoctoral Researcher
<ul style="list-style-type: none"> Research in theoretical particle physics Focus on lepton flavor universality and beyond Standard Model physics | Jan 2019 – Sept 2020
1 year 9 months |

Research Interests

- Multimodal Learning:** cross-modal representation learning, audio-visual learning (face-voice association), handling missing modalities in multimodal systems
- Recommender Systems:** cold-start recommendation, music recommendation, sequential recommendation
- Music Information Retrieval:** music emotion recognition, multi-modal music retrieval (audio, lyrics, video), music discovery patterns and user behavior

Skills

- Programming Languages:** Python, PyTorch, TensorFlow
- Machine Learning:** Deep Learning, Multimodal Learning, Recommender Systems, Graph Neural Networks, Computer Vision
- Research:** Scientific Writing, Data Analysis, Peer Review, Project Leading
- Languages:** Italian (native), English (C2), German (C1), French (B2), Chinese Mandarin (A1)

Other Interests

Passions: Music, Books, Mathematics, Science

Activities: Sports, Language learning
