Education

- PhD Johannes Kepler University Linz, Austria**, Computer Science Jan 2021 – present
- Research on multimodal learning and recommender systems
 - Supervising students
 - Contributing to the scientific community as chair (publicity, proceedings), program committee, and reviewer
- PhD Karlsruhe Institute of Technology (KIT), Germany**, Theoretical Particle Physics Jan 2016 – Jan 2019
- Thesis "Lepton Flavour Non-Universality - From Effective Field Theory to Extended Gauge Models"
- Research on new physics models and lepton flavor universality violation

Experience

- Albatross AI**, Applied Scientist (L5) Jan 2025 – present
1 year 8 months
- Developing effective recommender systems for Albatross AI's customers
- Deezer Research Team, Paris, France**, Research Intern June 2024 – Dec 2024
7 months
- User modelling from large-scale music streaming data
 - Analysis of user behavior patterns in music consumption
- Johannes Kepler University Linz, Austria**, PhD Researcher Jan 2021 – present
5 years 8 months
- Multimodal representation learning for recommender systems
 - Cold-start recommendation scenarios
 - Music information retrieval and emotion-based music recommendation
- Karlsruhe Institute of Technology (KIT), Germany**, Postdoctoral Researcher Jan 2019 – Jan 2021
2 years 1 month
- Research in theoretical particle physics
 - Focus on lepton flavor universality and beyond Standard Model physics

Selected Publications

- Face-Voice Association with Inductive Bias for Maximum Class Separation** 2026
M. Moscati, O. Kats, M. Noman, M. Z. Zaheer, Y. Hou, M. Schedl, S. Nawaz
(IEEE ICASSP 2026)
- Parameter-Efficient Single Collaborative Branch for Recommendation** 2025
M. Moscati, S. Nawaz, M. Schedl
doi.org/10.1145/3705328.3759302 (ACM RecSys 2025)
- A Multimodal Single-Branch Embedding Network for Recommendation in Cold-Start and Missing Modality Scenarios** 2024
C. Ganhör, M. Moscati, A. Hausberger, S. Nawaz, M. Schedl
doi.org/10.1145/3640457.3688138 (ACM RecSys 2024 (*Equal contributions))
- Integrating the ACT-R Framework with Collaborative Filtering for Explainable Sequential Music Recommendation** 2023
M. Moscati, C. Wallmann, M. Reiter-Haas, D. Kowald, E. Lex, M. Schedl
(ACM RecSys 2023)

Dataset

M. Moscati, E. Parada-Cabaleiro, Y. Deldjoo, E. Zangerle, M. Schedl
(ACM CIKM 2022)

Research Interests

- **Multimodal Learning:** cross-modal representation learning, audio-visual learning (face-voice association), handling missing modalities in multimodal systems
- **Recommender Systems:** cold-start recommendation, music recommendation, sequential recommendation
- **Music Information Retrieval:** music emotion recognition, multi-modal music retrieval (audio, lyrics, video), music discovery patterns and user behavior

Skills

Programming Languages: Python, PyTorch, TensorFlow

Machine Learning: Deep Learning, Multimodal Learning, Recommender Systems, Graph Neural Networks, Computer Vision

Research: Scientific Writing, Data Analysis, Peer Review, Project Leading

Languages: Italian (native), English (C2), German (C1), French (B2), Chinese Mandarin (A1)

Other Interests

Passions: Music, Books, Mathematics, Science

Activities: Sports, Language learning
